

**ICCAS 2023**

The 23<sup>rd</sup> International Conference on  
Control, Automation and Systems

October 17(Tue)-20(Fri), 2023

Yeosu Venezia Hotel & Utop Marina Hotel, Korea

**Call for Papers – Open Invited Session**

## **Data-driven Approach for Analysis and Control of Dynamic Systems**

Chair: Prof. Yongsoon Eun (DGIST) / yeun@dgist.ac.kr

The session is intended to collect and disseminate recent advances in the field of dynamic systems and control by the data driven framework. Core topics in dynamic systems and control such as stability, invertibility, tracking are expected to be revisited by the new framework. The session intends to cover both theory and applications of data-driven new approach.

We welcome contributions on this research topic. Please visit our website for details.
