

ICCAS 2023

The 23rd International Conference on
Control, Automation and Systems

📅 October 17(Tue)-20(Fri), 2023

📍 Yeosu Venezia Hotel & Utop Marina Hotel, Korea

Call for Papers – Open Invited Session

Recent Advances in Service and Industrial Robotics

Chair: Dr. Maolin Jin (KIRO) / mulimkim@kiro.re.kr

This session attempts to catch the recent research trend in the service and industrial robotics. The possible topics include novel designs and applications of robotic systems: such as, cooperative robots, disaster robots, military robots, mobile robots, walking robots, bio-inspired robots, aerial, underwater and spatial robots, medical robots, and robot-powered automation in various industries.

We welcome contributions on this research topic. Please visit our website for details.
