

ICCAS 2023

The 23rd International Conference on
Control, Automation and Systems

📅 October 17(Tue)-20(Fri), 2023

📍 Yeosu Venezia Hotel & Utop Marina Hotel, Korea

Call for Papers – Open Invited Session

Recent Advances in Multi-agent Systems and Control

Chair: Prof. Hyo-Sung Ahn (GIST) / hyosung@gist.ac.kr

In the past decade, there have been significant advances in multi-agent systems theory. This session attempts to catch the recent research trend in multi-agent systems. The possible topics are network systems and analysis, multi-agent systems and analysis, network control, multi-agent control, applications in smart power network, water irrigation network, traffic network, data and information processing, social network, and applications in multiple unmanned vehicles. By attending this session, the authors and audience could understand the recent techniques for analysis of the multi-agent systems and control methodologies.

We welcome contributions on this research topic. Please visit our website for details.
